

# Countdown Continues...

What may mean the Countdown, that the LORD God displays on the Sun?

End of the beginning is better, than beginning of the end. - Ray Fox <sup>5,353,3428</sup>

On a same place on the Sun there have been displayed digits recently, counting down 9,8,7,6,5,4,3,2,1 ..., one digit in approximately 27.3 days on each rotation of the Sun... First the digits were hardly discernable, but the recent ones were huge and rather hard to miss... This way the Countdown points to 2023-07-26, the Saint Anne and Joachim feast...

With the digit 1 on the feast of Saints Peter and Paul, the LORD God has written me twice: "Do not judge" in my native language, but it is hard not to mention the giant omnipresent Lie and Hate ruling the West, and I do not judge them, I am a Witness, and sometimes also a plaintiff and apologist. They will be judged by their People, by History, and most probably also by the LORD God...

But many people have been perplexed by the Regime Propaganda, using emotional manipulative expressions - invader, aggressor, dictator, defenders, crime, and also scientific and disinformation, which even if they weren't turned directly opposite from the Truth, even thus they would constitute a psychological manipulation... "Disinformation" is a defamatory slander, a broom for sweeping the Truth below the rug, and simpler people easily fall victim to these slanders, not struggling to find out the real Truth, comparing multiple sources of informations and understanding the Bias of those sources, because everyone sees it from a different viewpoint... But many people don't have a time to watch and carefully compare multiple sources, from multiple viewpoints, but because of this be careful, if someone will strive to silence the Warning Voices, or threaten and systematically silence one side of the Discussion...

Original "Liberalism", used only to break the Conservative Morals, evolved to a Tyranny of Decadence and Perversities - we don't have any "Liberty" to have and express our own opinion and way of life, but we are forced to revere lgbtqp Perversities and various Decadences... Transgender Monsters even straightforward chant, how [they're comming for our children](#) to deprave them...

...

Why does the Countdown point to the feast of Anne and Joachim? I don't know... [Joachim](#) is usually depicted with a basket of doves, symbolizing **Peace**. It would be nice, if this Countdown was just an emphatic appeal for the Peace...

But in current conflict on Ukraine the West would have to accept Status Quo, and admit Democracy of the Referendums, where people of the Donbass expressed, that the country belongs to the people living there and they can choose their governors, including across the borders, if the original ones are systematically terrorizing them, and the West would have to abandon their Feudalistic principle of Territorial Integrity trying to claim, that the country belongs to the Rulers in the distant Capital, and they can arbitrarily expel or exterminate the people living there whenever they want... This also has been turned upside down by the Western media...

Or do you really mean it, that Kingdom of Britain, unelected bureaucrats and Commission of EU oppressing the Europe, and the Fraudster Abaddon resident in the White House are going to lecture Russia with its democratically elected president with 80% popular support about "Democracy" ?

The Zelensky Regime and those who control him are striving to exterminate and expel all Ukrainian men in order to establish the New Khazaria there in place of the original one, they even calculated the expected losses to [20 million](#) (to match the world Jewish population?), and they really want to include the industrial Donbass and recreational Krymea in their new Khazarian land... (Which is the main essence of the Ukraine conflict - to retake original Khazaria from Russians while exterminating or expelling all Ukrainians... Who will re-populate the barren land?)

But I'm worried it won't be that simple, because with **1** in the Countdown, above that lackluster Czech inscription "do not judge" there has been in upper left corner a great hebrew inscription "[\(they\) will die](#)", or "(they) will be killed", which is written same, just the pronunciation differs... But that can be unintentional coincidence - most inscriptions on the Sun were in English, because with Hebrew inscriptions the mistaken interpretation is much easier to happen... I don't know...

What do we collectively deserve ?
